Hi John,

Here is the SMO application and bond calc. for Blue Mtn. Crushing. Please let me know via email if I have your concurrence.

Best regards,
April

April,

RE: Blue Mountain Crushing Permit

SITLA concurs in the DOGM reclamation bond estimate of \$64,000 for the BMC Seep Ridge Road Pit. The proposed mineral materials site has received cultural resources clearance by SITLA. The permit application (ML 52715-MP) was approved by the Director on Nov. 4, 2013, but the actual Mineral Materials Permit contract must yet be signed by the parties before work may commence upon the lands. Please go ahead and issue the DOGM Small-Mine permit at your discretion.

Thank you.

Hi Andy,

We received this application for a road materials small mine permit from these folks. I understand you have been onsite with them and have looked at the area they are interested in permitting.

Here is the SMO application they have submitted along with their bond calculation. They have signed the reclamation contract and have posted a surety bond. At this point, all we need is concurrence on the bond from you and also an ML number to finalize the NOI. I was told by them that SITLA has not issued the ML number yet, but will be issuing it by November 6th.

If everything looks good to you, please send me an email letting me know I have your concurrence. If you have questions, feel free to call me.

Regards,
April

Hi April,

I will be the administrator for the Blue Mountain Crushing permit. Can you please resend the attachments to me for review, as they were not on the forward that Andy sent to me. The permit number for Blue Mountain Crushing will be ML 52715. Thanks.
